

TBM PADS

The TBM pads are available in a wide range of non-woven nylon fibre fabrics, in aluminium oxide or silicone carbide, in various grains and dimensions. They are particularly suitable for manual jobs or electrical manual tools for satin finishing or masking. They are used on all type of materials like metals, woods, plastics, and ceramics. They can be used dry, or with water, detergents or solvents. These pads also do not rust.

APPLICATIONS

METAL

Suitable for satin finishing of metal surfaces and the removal of rust and corrosion. These pads are also useful for the preparation of car body surfaces.

WOOD AND PAINT

Suitable for manual wood sanding or paint buffing.

STANDARD PRODUCTION FOR ALUMINIUM OXIDE

AVAILABLE GRADES	GRAIN	COLOUR	DIMENSIONS	
			WIDTH MM.	LENGTH MM.
A—COARSE	80	Brown	120	280
A—MEDIUM	120	Brown	120	280
A—FINE	240	Brown	120	280
A—VERY FINE SOFT	320	Brown	120	280
A—VERY FINE STRONG	320	Brown	120	280
CUTTING AND POLISHING	MEDIUM	Light Brown	120	300

STANDARD PRODUCTION FOR SILICONE CARBIDE

AVAILABLE GRADES	GRAIN	COLOUR	DIMENSIONS	
			WIDTH MM.	LENGTH MM.
S—MEDIUM	120	Dark Grey	120	280
S—FINE	240	Dark Grey	120	280
S—VERY FINE	320	Dark Grey	120	280
S—SUPER FINE	400	Dark Grey	120	280
S—ULTRA FINE	600	Dark Grey	120	280
S—ULTRA FINE SPECIAL	1000	Dark Grey	120	280
S—ULTRA FINE SPECIAL 2	1200	Dark Grey	120	280
